DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art, either singularly or in combination.

The present invention is directed to adding a layer of security to a network client device that is connected to a network via a broadband connection. The security provided by the present invention takes into account the physical location of the client device. The security provided by the present invention insures that the client machine has not been moved from its authorized or pre-established location.

With the present invention, a check is made to insure that the machine connected by a broadband connection is located at its assigned location. If this check finds that the client machine is not at its assigned location, the broadband network connection is inhibited or terminated.

These features are not found or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Peeso whose telephone number is 571 272-3809. The examiner can normally be reached on Mon.-Fri, 7:00 a.m. to 3:30 p.m. The central fax number for the office is 571 273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gilberto Barron, can be reached on 571 272-3799.
